

K406 : CHAIN SPRAY

NSF category H1 - incidental contact

Description of product

A NSF registered foodgrade chain spray and highly tenacious, anti-fling lubricant, designed for chain and drive systems in food plants. • All angle valve means the lubricant can be sprayed when inverted. • Non Toxic and water resistant. • Protects from corrosion.

Tenacious anti-fling formulation
Ideal for rotating and moving parts
Chemical and water resistant
Safe for use where incidental contact with food may occur
Chlorofluorocarbon (CFC) free aerosol

Directions

Shake well, spray from a distance of 15-25cm using the extension tube for difficult to reach areas. A thin film is sufficient for most applications. All angle valve means lubricant can be sprayed inverted.

iNsight Supported

iNsight is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/insight>

iNsight recommended product uses

Special - maintenance aerosols (lubrication/cleaning)

Product Hazards and PPE Requirements

Danger

Contains :

Risk Phrases

Extremely flammable aerosol. Pressurised container: May burst if heated.

Safety Phrases

Keep out of reach of children. Keep away from heat, sparks, open flames, hot surfaces. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122°F.

Technical Data

Composition	A blend of light lubricating oil and tackifying agent
Appearance	Clear tacky liquid
Colour	Colourless
Viscosity	50 cps
Density	0.868
Fragrance	Slight solvent
Stability	2 years in a unopened container
Storage	Pressurised container. Store out of direct sunlight. Temperature must not exceed 50oC

Aerosol Information

Propellant	Hydrocarbon
Pressure	90 psi
Spray Rate	1.8
