

F085 : MD 5

hard water detergent for enclosed dishwashing machines

Description of product

MD5 is an advanced formulated machine dish wash detergent with a unique blend of detergents for accelerated soil removal. Active de-foamers work in the toughest of conditions. Whilst progressive corrosion inhibitors protect dishwasher parts.

MD5 is part of Selden's new and unique range of machine dishwashing detergents, offering performance and economy for all soil type and water conditions.

Directions

Remove food scraps from dishes before racking. Normally a concentration of 0.14% - 0.33% (1400ppm – 3300ppm) is used, dependent on level of soiling and water hardness. The temperature of the wash cycle should be at least 60°C. Results are enhanced by use of Selden RA2 rinse aid in the final rinse. NB DO NOT USE on Aluminium, Lead crystal or hand painted china. PROTECT FROM FROST

iNsight Supported

iNsight is Selden's interactive product selection and training system. Enables the user to create full COSHH training kits, wallcharts, task cards and more. visit <http://www.selden.co.uk/insight>
